

SPECIALIZED TRAININGS

CARE provides specialized professional capacity training and strategic planning in critical areas including suicide prevention, support for the unhoused, alternatives to incarceration, LGBTQIA+ affirming practices, right-brain trauma and restorative practices, forensic case management, crisis response, violence intervention, and professional peer support development. These programs equip organizations with evidence-based tools, foster resilient teams, and drive sustainable community outcomes. By addressing urgent social challenges, CARE builds capacity for equitable, trauma-informed service delivery across Los Angeles.
